### **Bio**

I've lived in the District full time since 2008, including stints in Mt. Pleasant (5 years), Columbia Heights (1 year), H street (3 years) and now Lannier Heights (2+ years). I grew up just outside of Trenton, NJ and received my bachelors (economics) from Wake Forest University in 2006 and my masters (public policy) from Rutgers University in 2008. In my free time I enjoy staying active, usually either running in Rock Creek Park or playing soccer in District Sports. I just celebrated my 35 and half birthday (September 5) and look forward to many more here in the District.

### **Why Run?**

I guess you could say I'm running for two major reasons. First and foremost is that I have loved living all across this city and specifically appreciate how wonderful our neighborhood is and wanted to make sure everyone else is able to enjoy it just as much as I have. Second, with so much happening in our area, I wanted to make sure that our neighborhood was formally and fully represented on the ANC. While I know I have a lot to learn about our neighborhood, I do know that its a pretty great place to live and want to do my part to ensure it only gets better.
