Address: 2231 Ontario Road NW #1 Washington, DC 20009	Phone: 202-816-9700 Email: cmcnovelist@gmail.com
Signature: 	

The purpose of this Questionnaire is for DDOT to gather information about a safety concern in order to perform a Traffic Safety Assessment (TSA). The intent of the TSA process is to ask residents to identify traffic safety concerns, whether along a roadway segment or at an intersection, and focus on the definition of the safety concern(s) rather than on a proposed solution or mitigation measure. Based on the nature of the request, DDOT will determine the type of assessment necessary to investigate the extent of the traffic safety concern.

To begin a Traffic Safety Assessment, please fill out the information below and answer any questions to the best of your ability. If necessary, please attach additional pages. In addition, a letter of support from your ANC Commissioner is **required**. Find your ANC here: <https://anc.dc.gov/>

Once completed, please submit this form and ANC support letter to DDOT via the address provided below, or you can email the form to traffic.safety@dc.gov.

If you have any questions, please contact DDOT at 202-673-6813. Thank you.

Version 1.01, updated May 2019

Questions	
<p>Location of requested investigation: Define geographic boundaries as clearly as possible (400 block of A Street NE, intersection of 1st Street & B Street NW, etc.)</p> <p>Is this location near an existing construction project? If yes, please provide the name and location of the project and any construction-related concerns.</p>	<p>2000 block of Ontario Road NW - residential street between Florida and Kalorama Roads as well as between Kalorama and Euclid St.</p>
<p>Safety concerns: Provide a detailed description of the problems observed in the area of investigation (vehicle crashes, speeding, pedestrian safety, bicycle safety, unable to cross the street, hard to see cross-traffic, etc.)</p> <p>For intersection-related concerns, please include the type of intersection:</p> <ul style="list-style-type: none"> ▪ 1 or 2-way STOP control ▪ All-way STOP control ▪ Traffic signal 	<p>excessive speeds/use of heavily populated residential street as high-speed cut-through, possibly for motorists to avoid the commercial corridor of 18th and traffic on 16th</p>
<p>Days and time when safety concerns are the worst: Such as weekday AM peak, weekday PM peak, overnight, weekends, etc.</p>	<p>weekday peak times are the worst esp. with utility, delivery and/or construction vehicles, however all times are bad with excessive car speeds</p>
<p>Are there existing traffic calming features on the block? This includes speed humps, rumble strips, etc.</p>	<p>no</p>
<p>Describe neighborhood uses: Such as residential area, retail area, school zone, recreation center, community center, etc.</p>	<p>residential and school zone; but also near-perpendicular to grocery route used by numerous pedestrians daily</p>
